

PERSONALIZED MEDALS

The orange tree planters «Château de Versailles» are decorated with four medals. A medal appears on each of the cast iron crosspieces that link the posts.

Two «Château de Versailles» medals facing each other and two «Jardins du Roi Soleil» medals the other way round with the year of manufacture of the orange tree box on each of them.

We offer a special offer for our prestigious customers with the possibility of personalizing one (traditionally) or several of these medals. We engrave the logo, coat of arms, acronym or weapons on the planters so that they reflect the image of our customers. Thus the unique side of each planter made by hand with us is underlined elegantly and discreetly.

All you have to do is specify it when ordering and send us a high-definition logo, here are some examples of customizing medals:
